Northeast Perspective

• **An asset to the community:**

Aurora Water respects the natural heritage of our neighbors. To help preserve the area's rural feel, designs incorporate architectural elements that compliment the pastoral setting near our facility.

• **Built to minimize impacts:**

Noisy neighbors are not good neighbors, so in order for Aurora Water to be a good neighbor, pumping stations are specially designed to help minimize noise impacts.

The area's natural terrain is incorporated into the facility's design, further blending the facility with the area's surroundings.
